

MOTION GRAPHIC ANIMATOR DESIGNER

## PROFILE

Name : YOO JONG DAE

Nationality : South Korean

Date of Birth : 12/05/1973

Language : English , Korean

Occupation : FREELANCE MOTION GRAPHIC ANIMATOR

My goal is to secure a position with a stable company such as yours where I can put my experience, training and skills to good use.

I have a bachelor's degree in computer science and I am still learning.

I have extensive knowledge of UI technologies that include XML, HTML, XSL, JSP, php and Java Script.

I also have the knowledge to create interactive media design using Photoshop and the skills to turn these visual designs into HTML codes.

I have the ability to create interesting WebPages while keeping them user friendly.

I also possess outstanding verbal and writing skills with the ability to communicate with different departments, executives and clients efficiently. I am a self-starter with the ability to take control of the situation and work independently to get the job done.

However, I am also a team player and I enjoy sharing ideas and information with other professionals in order to get the best possible results for all projects.

The attached resume contains a complete look at my educational background and work history along with my personal skills most relevant to this position.

Thank you for taking the time to consider my application.

## EDUCATION

Bachelor's Degree in Computer Science

## EXPERIENCE

1998 - 2002

Web Master Post at DK Co.Ltd Web Advertising Agency (Seoul South Korea).  
My role working as graphics designer and websites Coding and control workstation.

2003 - 2007

Video Editor Live Streams SBS Seoul Broadcasting System South Korea.  
Have been involved in all aspects of video production: From shooting, to post production and final delivery for television broadcast, disc, and web formats. In the last few years, became responsible for the post production of the Dreams & Mysteries television show. In addition to training some staff, other projects include: composing original music for web and television shows, building custom computer workstations suitable for video/audio production.

2015

As of April 2015, we launched a new anime channel, The Leaderboard. Tasked with developing the pilot, including its format, mood, feel, key visual elements, and more Our first video has already amassed 230,000+ views, 1,200,000+ minutes watched and 15,000+ subscribers within its first two weeks. As we continue to ramp up our video content in both quantity and quality, I am heavily involved in the piloting process and development for new videos and show-types
